

CARPETS

15:1 Dilution

clean & simple™ can be used to clean an entire carpet or to remove an individual stain. These are just a few of the toughest stains that can be removed:

Grease	Oil
Wine	Coffee
Paint *	Candle Wax *
Liquor	Glue *
Soda	Some Inks
Lip Stick	Grape Juice
Pet Stains (odors)	Water Stains
Gum *	Hair Dye
Vomit	Nail Polish *

Individual Stain Removal:

1. Spray **clean & simple™** onto the stain until completely saturated.
2. Rub stain out of carpet with a clean, dry towel.
3. Repeat application if necessary.

NOTE: The success with which the stain can be removed depends on the length of time it has been in the carpet and whether or not another chemical has been used previously on the stain.

** HOT HINT: For those extra stubborn stains, here's a tip that the pros use. Heat **clean & simple™** (properly diluted) in your microwave prior to application. You'll be amazed!*

Complete Carpet Cleaning:

To Shampoo With Machine:

1. Vacuum area to be cleaned.
2. Mix **clean & simple™** into the holding tank of the machine.
3. Pre-spot problem areas before beginning.
4. Shampoo the entire carpet.
5. Remove excess moisture from the carpet with a towel or vacuum if necessary.

To Shampoo Without Machine:

1. Vacuum area to be cleaned.
2. Pour **clean & simple™** into a household bucket or pail.
3. Apply with soft bristle brush to loosen soil.
4. Rub clean with a dry towel.
5. Vacuum.

*NOTE: When using **clean & simple™** on carpeting, fabrics, or upholstery, always test on a small inconspicuous area for colorfastness.*

did you know?

A typical American family spends at least \$20 per month * on an assortment of cleaning products. Add in a professional carpet cleaning every six months at a low estimate of \$150 per cleaning and you have a minimum yearly expenditure of \$540, just for basic cleaning expenses.

* Based on Direct Marketing Research's 2011 annual family budget survey.

our customers speak out...

It was like a miracle! I moved to a new house and **clean & simple™ took all of the spots out of the carpet. I didn't have to rent an expensive carpet cleaner!**

Mindi D.
Chanhassen, MN

Works great on granite and marble... leaves no residue. EXCELLENT CLEANER!!!

Arleen B.
Racine, WI

Your product is MARVELOUS! We use it on everything!!!

Hal E.
Bakersfield, CA

Hello! I was extremely impressed by the way **clean & simple™ cleaned the mildew off my park bench and made it look like new!**

Denise A.
Pittsburgh, PA

My mom gave me the rest of her bottle of **clean & simple™. We've been so impressed with it's effectiveness in a house with two adults, three children, seven cats and one dog! As a pretreater for carpet stains it really is amazing! I've used it all over the house so far, and if we are ever in doubt of any other cleaner's effectiveness, we just grab that bottle of premix and go!**

Tina and Dave H.
Port Orchard, WA

directions...

clean & simple™ is a highly concentrated multicleaner that should be diluted with water for most surfaces. However, **clean & simple™** can be used straight from the bottle for your toughest cleaning chores. Shake the concentrate well before using. For the easiest application mix **clean & simple™** in a spray bottle at a 15 to 1 dilution (2 oz. of concentrate to 30 oz. of water) for general cleaning, or for glass, mirrors and stainless steel, use at a 120 to 1 dilution (1 oz. of concentrate to 1 gallon of water or 1 tablespoon to 1 quart of water). Spray the surface to be cleaned, then wipe dry with a clean towel or cloth. Repeat if necessary.

GLASS / MIRRORS / STAINLESS

120:1 Dilution

1. Dilute 1 oz. of **clean & simple™** in 1 gallon of water, or 1 tablespoon of **clean & simple™** in 1 quart of water.
2. Spray **clean & simple™** onto surface, then buff dry with a clean towel or cloth.

NOTE: To prevent streaking, resist using too much concentrate, or cleaning surfaces in direct sunlight.

LAUNDRY

15:1 Dilution

1. Apply **clean & simple™** with a spray bottle to those tough laundry stains as well as to "ring around the collar".
2. Let stand for 60 seconds.
3. Scrub with your hands or a nylon brush.
4. Add to your regular wash load.

NOTE: **clean & simple™** is great for removing dirt and grass stains from athletic shoes.

SHOWERS / TUBS / TILE

15:1 Dilution

- Removes mildew, soap scum, and hard water deposits from showers, tubs, fixtures and grout.
1. Apply **clean & simple™** with a spray bottle.
 2. Let stand for 60 seconds.
 3. Rub clean with a towel or cloth.

NOTE: For built-up soap scum, mildew and hard water deposits, some scrubbing with a non-abrasive scrub pad may be required.

OVENS / STOVES / GRILLS

15:1 Dilution

1. Preheat surface (warm to touch).
2. Liberally apply **clean & simple™** with a spray bottle to the surface to be cleaned.
3. Wipe clean with a towel or cloth.

NOTE: Scrub problem areas with a scrub pad.

UPHOLSTERY / VINYL

15:1 Dilution

1. Apply **clean & simple™** with a spray bottle to stained area.
2. Rub clean with a dry towel.

WALLS / PAINTED SURFACES

15:1 Dilution

Cleans smoke film, crayon, pencil, ink marks, and greasy build-up.

1. Apply **clean & simple™** with a spray bottle.
2. Scrub specific problem areas with a towel.
3. Wipe clean with a towel or cloth.

NOTE: When cleaning a water-base paint surface or wall-paper, spray **clean & simple™** onto a towel or sponge first, then wipe wall lightly.

CONCRETE / POOL DECKS

15:1 Dilution

Removes rust, oil, and grease from driveways, garage floors and pool decks.

1. Apply **clean & simple™** with a spray bottle, or mix in a bucket and pour directly onto stained area.
2. Allow to stand for 5-10 minutes.
3. Scrub stains with a wire-bristle brush.
4. Rinse area with water.

WOOD DECKS

15:1 Dilution

Removes mold, mildew, algae, and weathering from decks, docks, siding, etc.

1. Mix **clean & simple™** in a bucket or spray bottle. *
2. Apply liberally to surface.
3. Allow to stand for 5-10 minutes.
4. Scrub with a stiff-bristle brush.
5. Rinse with water.

NOTE: Sealing deck after cleaning is recommended. * **clean & simple™** can also be mixed and used in a pressure washer.
